

What is the... AMPS PATTERN?

What does AMPS compatible mean?

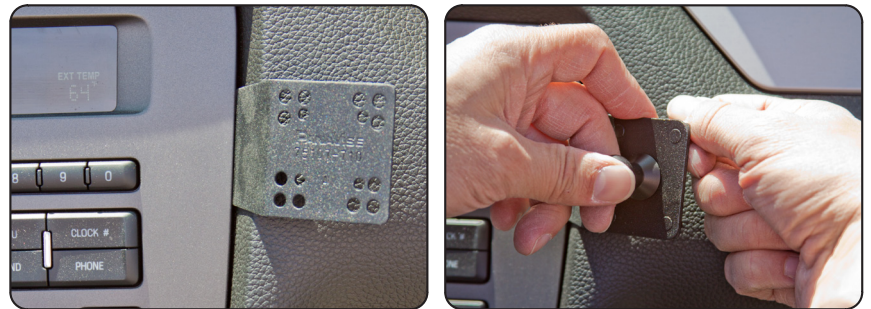

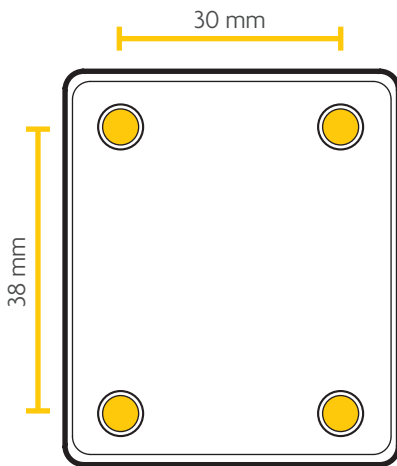

Model:
809-AMP
STANDARD AMPS
WINDOW MOUNT

THE AMPS HOLE PATTERN IS AN INDUSTRY STANDARD HOLE CONFIGURATION.

It consists of four (4) holes located in a rectangular pattern spaced at 1.181" x 1.496" (30mm by 38mm).

In some cases the AMPS pattern consists of multiple holes, allowing the mount to be fitted in both a horizontal or vertical orientation.

MOST THIRD PARTY MOUNTING DEVICES & CRADLES HAVE THE AMPS HOLE PATTERN.

THE AMPS PATTERN CAN BE FOUND ON ANY NUMBER OF DIFFERENT SHAPED MOUNTING DEVICES. THE AMPS PATTERN STAYS THE SAME.
