**Impreza Wagon 02-04, Impreza Sedan 02-04**

**Impreza WRX 02-04,**

**Impreza 05-06 (Only w/Manual ClimateControl)**

### \*\* ADVISEMENT \*\*

Read instructions completely prior to starting installation. All InDash Mounts are designed so that after installation, phone is facing normal driver position for left-hand drive vehicles. This mount is not designed to be used in foreign countries with right-hand drive vehicles. Use extreme care when working around the plastic components on the dash. Excess force, can cause breakage of the plastic components.

**STEP #1: 2002-2004:** Open cup holders. Insert hook tool into bezel that surrounds the radio and climate control. Unsnap clip, continue to release all (4) clips. Set bezel aside. **FOR 2005 MODEL: Open ash tray door and remove the insert. With Phillips screwdriver remove the (1) screw in the cavity. Lift up on the center console bezel by shifter to release (2) clips. Continue to lift up on the bezel to release the ashtray. Disconnect wires as necessary. Set Aside.**

**STEP #2: 2002-2004:** With Phillips screwdriver, remove the (1) right side screw that holds the climate control on. Pull out the climate control just enough to allow the InDash by PanaVise to fit behind the climate control bracket. Align the mount hole over the screw hole, and the slot surrounds the pin on the climate control bracket. Align the mount flush to the side of the dash. **FOR 2005 MODEL: Remove the (2) exposed Phillips screws that hold the radio and climate control bezel in place. Pull out on the lower part of the bezel, continuing to the top to release (2) clips. Set bezel aside.**

**STEP #3: 2002-2004:** Reinstall the (1) Phillips screw to the climate control and reinstall bezel back in place. **FOR 2005 MODEL: Remove the (2) exposed Phillips screws that hold the radio and climate control**

INSTALLATION IS NOW COMPLETE. ENJOY YOUR NEW INDASH by PANAVISE MOUNT.
